BÁTOR TÁBOR
ANNUAL REPORT 2025

We give courage.
We give healing moments.

BÁTOR TÁBOR
a seriousfun camp

OUR MISSION

We heal through experiences.

Since 2001, we have been working to provide healing experiences for children living with serious or chronic illnesses and their families—giving them the chance to live fuller lives. Through our free programs, children, their siblings, parents, and classmates rediscover their inner strength and experience the power of a supportive community. From the start of hospital treatment to the return to school, we are there every step of the way. With our work, we aim to build a healthier society in all four countries where we operate: Hungary, the Czech Republic, Poland, and Slovakia.

WELCOME

For 25 years, Bátor Tábor has been healing through experiences. For 25 years, we have been giving strength, hope and confidence to children whose childhoods are overshadowed by a serious or long-term illness. We provide all this free of charge to families because we believe that experiences have healing power.

Over the past quarter of a century, we have witnessed countless special moments in our camps, hospitals, classrooms and online programs. We have seen children begin to believe in themselves again, and parents regain hope even during the most difficult periods. Every smile, every new friendship and every small success proves that courage is contagious.

We could not do this work without our supporters, volunteers, partners and friends. We are grateful to everyone who believes in our mission and helps us give strength to more and more families.

Our first camp had 35 campers; today, we provide therapeutic recreational programs for more than 7,500 participants every year.

One of our campers once put it this way: “At Bátor Tábor, I learned that if I am persistent enough, the sky is the limit.” To us, this is the true value of our work. We do not simply provide experiences, but also faith, confidence and strength to face the challenges of everyday life.

On behalf of the children and their families, thank you for standing by us.

Detti Simon
Regional Executive Director
Bátor Tábor Foundation

STATUS REPORT FROM THE CAMP

In 2025, we once again experienced the power of allowing families living in the shadow of illness, loss or uncertainty to simply be themselves again for a few days. In our programs, participants are not defined by their illness. Here, children can be children again, while families can collect shared experiences that give them strength to face the challenges of everyday life for a long time to come.

In the summer of 2025, we held five camp sessions. In addition to sessions for 7–13- and 14–18-year-olds, we also held two Sibling Camps this year, where children living with illness came to us together with their healthy siblings. The focus of these sessions is to strengthen the bond between siblings by giving them opportunities to take part in programs both separately and together. This allows them to rediscover each other as allies, friends and trusted partners who make them feel safe.

In addition to the above, in 2025 we also held the International Family Camp, where Slovak and Czech families spent five unforgettable days together. Families experienced that they are not alone and that relationships formed through similar life situations can provide tremendous strength.

The 10th cycle of our Bereavement Camp began. Bereavement Camps are for families who have lost a child due to illness, an accident or during the perinatal period. The families spend a year with us, attending three four-day sessions. The three-part process provides a safe space for experiencing loss and for families to connect with one another and with others who have gone through similar experiences.

In autumn, we also held three Family Camps for families raising a child under the age of nine who is living with an illness. At these camps, both parents and children can recharge: while the children gain new experiences, families find a community where they are met with understanding and acceptance.

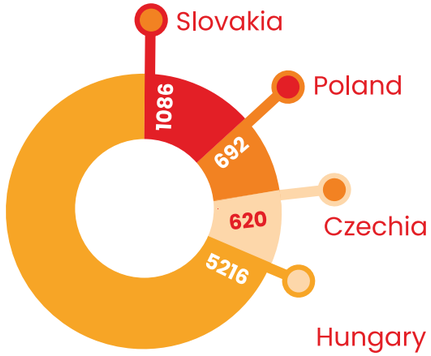

Each of our camp types is designed for families in different life situations, but they all share the same goal: to give children back the joy of childhood and strengthen families in the most difficult situations in life.

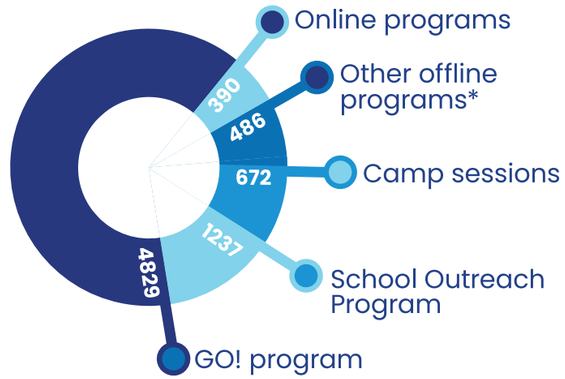

HEALING MOMENTS IN 2025

" IN 2025, WE PROVIDED 49,862 HOURS OF THERAPEUTICAL MOMENTS TO 7,614 PARTICIPANTS IN CZECHIA, POLAND, SLOVAKIA AND IN HUNGARY. "

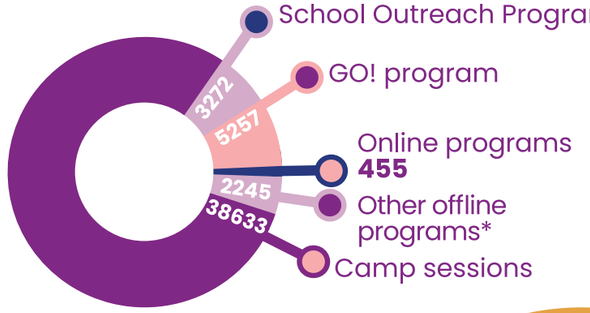

PARTICIPANTS ON LOCAL PROGRAMS

PARTICIPANTS BY PROGRAM TYPES

THERAPEUTICAL HOURS BY PROGRAM TYPES

*e.g: parent program, workshops, city camp

" BÁTOR TÁBOR IS LIKE A DREAM. THERE IS NOTHING BAD HERE — ONLY GOOD THINGS. HERE, WE LEARN THAT NOTHING IS IMPOSSIBLE. BUT THIS IS NOT A DREAM... THIS IS REALITY. "

HEALING EXPERIENCE BEYOND THE GATES OF THE CAMP

GO! program

In 2025, the GO! Program reached another milestone: it turned 10, and we also delivered our 1,500th program. During the program's 10 years, our volunteers have provided more than 15,000 personal and online experiences in Hungary, Czechia, Poland and Slovakia.
To celebrate the anniversary, we created the GO! board game, a simple tool that makes it easier for children who are not yet familiar with Bátor Tábor to connect with our volunteers. The board is based on a map of Bátor Tábor and offers participants the opportunity to play various well-known and popular board games through the different camp locations.
After our autumn training, where nearly 100 new GO! volunteers joined us, we began taking the board-game-based program into hospitals.
In addition to Budapest, our volunteers fill hospital wards with laughter in Debrecen, Szeged and Pécs. Together with our partner organisations, we also travel around the country to bring the Bátor Tábor experience to as many places as possible.
Interest in our popular online programs continues to grow. During the year, we met, created and connected with 304 participants in front of their screens through creative, innovative and regular sessions.

School Outreach Program

The aim of our School Outreach Program is to create a class that is a team where everyone feels good; where returning to school becomes child's play for the child concerned, and inclusion becomes child's play for their classmates too.
In 2025, we reached 23 classes and met 584 participants across the country – and even beyond its borders, as we held a program together with the volunteers of the Slovak school program at a Hungarian-language school in Slovakia. On one occasion, we also expanded the program with an unusual third session. In addition, we held four awareness-raising sessions for a total of 179 people.
In 2025, the program reached 173 participants in Slovakia and 301 in the Czech Republic, bringing the total number of participants reached across the three countries to 1,058.
As a new development, we incorporated an increasing number of elements of narrative therapy into the sessions, particularly for children in the first and second grades.
To spread the word about the School Outreach Program as widely as possible, we took part in the several events organized for teachers, and we also held an online workshop for teachers.
As part of our cooperation with Sulinyugi, teachers were able to participate in the workshop Stress Management at School, and we also gave a presentation about our program to Sulinyugi volunteers.
In autumn, as in the previous year, we held joint training with the GO! Program at the camp, and 25 new volunteers joined the School Outreach Program.

Parent Program

At the Family Camps, we often experience how much parents can breathe a sigh of relief when they too can play and connect with others who are in a similar situation for a few hours. Parents of children living with illness are exposed to increased levels of stress, and their everyday lives are characterised by worry, fear and isolation. There is rarely a focus on how they are doing, how they feel or what they can do for themselves.
We are committed to providing the entire families of children living with illness with empowering experiences that help them through difficult life situations. Therefore, in 2025, we launched our new program in Pécs specifically for parents raising a child living with an illness. While our volunteers run programs for their children, parents can relax, take part in a variety of activities and meet others in similar situations.

ON INTERNATIONAL WATERS

CZECHIA

In 2025, we provided a total of 3,344 hours of therapeutic recreation to 656 Czech participants through our programs in Czechia and our international camp in Hatvan.

One of the year's most significant achievements was the launch of our hospital program at the pediatric ward of Motol University Hospital in Prague. In just two months, 68 children staying in the largest hospital in the city took part in therapeutic recreational program that created opportunities for play, joyful moments and connection in the hospital environment.

Our school program operates in three regions – Prague, the Central Bohemian Region and the Ústí nad Labem Region – with the participation of 59 trained and active volunteers.

During the summer international family camp in Hatvan, 36 children living with illness, parents and siblings camped with us.

During the year, we also held three online and four in-person workshops, attended by more than 250 children and their family members.

POLAND

In 2025, we continued our hospital program in three hospitals in Warsaw.

We also organised several arts and crafts activities and held our first Co-Creation program. This three-day event brought together children living with illness and their peers from different backgrounds to create works of art together.

We introduced a new format for our City Camp program: during the summer holidays, more than 50 children took part in five sessions, each lasting five days.

In total, we provided 692 children and parents with 2,175 hours of therapeutic recreation, delivered exclusively in person through local programs.
We delivered these programs with the support of 67 volunteers.

SLOVAKIA

In 2025, we empowered and encouraged a total of 1,126 Slovak participants through nearly 3,800 hours of therapeutic recreation, delivered through our programs in Slovakia and our international camp in Hatvan.

Our hospital program brought joyful moments to 803 people. An important milestone was that our hospital program is now available not only in the capital but also in Košice.

Through our school program, we support the confidence of children living with illness and strengthen their class communities during the challenging period of returning to the classroom. In 2025, 173 children took part in the program.

During the year, we held a variety of creative workshops, from spring gardening activities to diverse autumn sessions.

The highlight of the summer was a Family Camp in Hatvan, attended by attended by 40 campers, where parents and children could push their own boundaries in a supportive environment and draw new strength for the everyday challenges of living with illness.

All these achievements were made possible thanks to the commitment and dedication of our 93 volunteers.

MILESTONES AND MEMORIES

BEATS FOR KIDS

Something wonderful can only come from bringing music, entertainment and charity together.

Beats for Kids, the latest music campaign of Élménykülönítmény, combines these ingredients to encourage participating entertainment venues, music events and mini-festivals to support Bátor Tábor.

AMBASSADORS

Our community gained three new ambassadors in 2025: presenter Évi Barabás became an ambassador for Bátor Tábor, while Olympic athlete Ajna Késely became an ambassador for Élménykülönítmény. Ákos Hegedüs, a company executive, joined our mission as a corporate ambassador.

INTERNATIONAL VOLUNTEER DAY

On International Volunteer Day, we brought the atmosphere of our programs to a café in Budapest. Visitors could try games from the School Outreach Program, the GO! Program and our camps, and view an exhibition about camp traditions. In the evening, we attended a talk on the impact of volunteering on individuals, followed by a panel discussion with our volunteers.

WITH MUSIC FOR THE BRAVE ONES

As part of our 1% campaign, we launched the online With Music for the Brave Ones challenge, joined by nearly 30 musicians.

Bori Péterfy, Anna Pásztor, Viktor Király, Rezső Soltész, Parno Graszt, Ivan and the Parazol – and many others – sent encouraging messages to campers in the form of songs and drew attention to the opportunity to donate 1% of one's tax.

1%

At Bátor Tábor, children living with illness can be children again. This is also the message of our latest image film, in which children list the names of hospital equipment with everyday naturalness. We are working to give as many children as possible carefree childhood experiences, so that more and more children can discover that wonderful world where days are shaped not by cannulas and pulse oximeters, but by play and laughter.

In 2025, 21,318 taxpayers decided to support us by donating 1% of their tax.

ÉLMÉNYKÜLÖNÍTMÉNY

The fundraisers of Élménykülönítmény, our peer-to-peer fundraising program, launched a total of 131 campaigns and raised nearly HUF 40 million for Bátor Tábor.

Charity runners at races in Budapest and elsewhere in the country, the Balaton crossing swim and the Gerecse 50 hiking challenge – together with our charity athletes and the world's loudest cheering team – showed everywhere that charity sport is a true community experience.

AUCTION

In May, we held the 21st Bátor Tábor Contemporary Art Auction. At our live auction, 77 works of art were sold, while works by 12 young artists were available for bidding online. To mark Paul Newman's 100th birthday, we also put up for auction a photograph signed by him. The auction closed with a record total, raising HUF 106 million for Bátor Tábor.

FAMILY DAY IN THE CAMP

At this year's camp open day, we were able to spend an eventful day with nearly 1,000 campers and their families, supporters and volunteers.

BÁTOR RALLY

We launched a new fundraising event, Bátor Rally. At the experience-focused social event, 27 rally cars took to the starting line and three sponsor stations joined as supporters.
With the support of AutoWallis, the event generated HUF 36 million in revenue.

WE RAN A MARATHON TOGETHER!

A total of 100 volunteers, celebrities and athletes – including Attila Katus, Kornél Simon, Krisztián Berki, Ajna Késely, Vivien Rujder and Zsófi Kemény – ran the marathon distance at the 'Let's run a marathon together' event. At the event, everyone completed 1% of the distance – 422 metres. The aim of the event was to draw attention to the fact that with a little effort, we can achieve a huge impact together.

CHARITY GOLF TOURNAMENT

On 5 September, on World Charity Day, we held our Charity Golf Tournament for the 22nd time. The tournament and the auction that followed raised HUF 79 million, the highest amount ever achieved in the history of our golf events.

YOUNIQUE

For the first time, we held our new art auction, Younique, where the most promising young visual artists from 11 Central and Eastern European countries presented their works, selected by four renowned curators.

The event, held at KIOSK in Budapest, featured performances by Deva, DJ Polar and the dancers of Solar Eclipse. The inaugural auction, hosted by Zsófi Kemény, raised HUF 20 million.

FÓKUSZ PLUSZ FUNDRAISING SPECIAL

In May, we appeared on RTL with a fundraising TV program. The campaign raised HUF 15.5 million, which the channel supplemented with a further HUF 10 million donation.

REGIONAL FOCUS

In 2025, regional focus became one of our priorities. In order to bring Bátor Tábor experiences to as many places as possible, we placed particular emphasis on recruiting participants and volunteers in Pécs and the surrounding area, building professional relationships and increasing our visibility.

To this end, we were present for several days at both the Fishing on Orfű and Ördögkatlan Festivals, offering experiential therapy-based games and informational conversations.

"THE FOCUS WAS NOT ON THE PROBLEMS, BUT ON US"

The numbers show how many people we reached; the stories show what kind of change the experiences brought to participants' lives. Every day, our programs give us the opportunity to witness moments that bring us closer to and reveal the true impact of our work.

Six-year-old Dávid was able to take a break from the everyday difficulties and illness-centred routines of everyday life and spend a few days with his parents and two siblings at the autumn Family Camp.

Their Family Cimbora, Míra, immediately saw a confident, authentic little boy in Dávid. Although he missed his parents very much during the first programme, he became increasingly relaxed and open day by day.

"He gradually opened up, became more and more open and even more curious as the days went by."

The parents also quickly felt at home at the camp. They allowed the children to explore the programs independently, while they actively took part in the daytime and evening activities designed for parents.

"It was a huge experience for the children, but it gave us so much too. We were able to step out of the daily grind. Everything did not revolve around the illness and treatments," says Móni, Dávid's mother.

"The whole time we spent at the camp was about us. It was good to live in the moment and simply be together."

The family took home not only shared experiences from the camp, but also new strength.

"The volunteers left a very deep impression on us. We think about them a lot, and about something one of our Cimborák said: 'Just go ahead, we'll sort it out.' And they did. They really did sort everything out. We are incorporating this attitude – 'we'll sort it out, don't worry' – into our everyday lives."

OUR VALUES

#1

HUMAN-CENTERED

You are important to us, no matter how you connect with us. Whether you are a child, a parent, a volunteer, a supporter or a colleague, your well-being is essential. We believe in teamwork and in the power of community, therefore your contribution to our mission is also important. We value diversity. Tolerance and acceptance are key in our work.

#2

TRANSPARENTLY

Our operations, work processes, and financial activities are transparent and ethical. We communicate in a transparent manner, clearly, honestly and straightly to both external partners and within the organization.

#3

INDEPENDENTLY

For us, our mission is important, and we always operate independently from everyday politics. We only accept donations from sources which are consistent with our values.

#4

PROFESSIONALLY

We urge to operate and nurture our business relationships in the most professional way. We develop constantly, and develop our colleagues and volunteers as well. We are open to new ideas and consciously try to find innovative solutions. We dare to make mistakes and learn from them.

#5

POSITIVELY

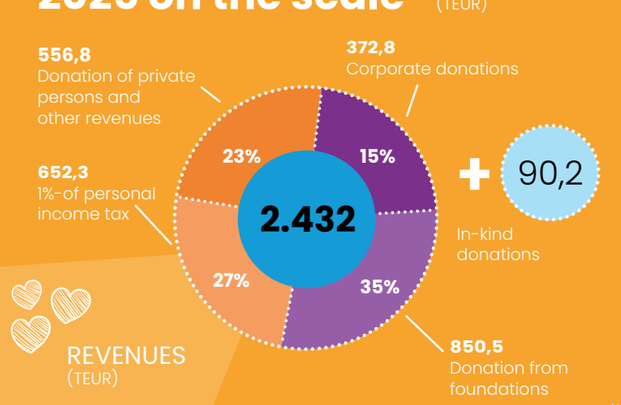

We look at the bright side of life. Our messages are positive, and we are optimistic about the future. We focus on solutions and opportunities instead of problems. We believe that good is contagious, and spreads rapidly.

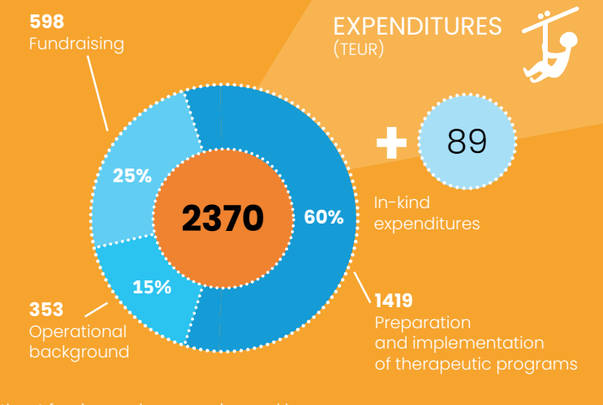

#6

TRUSTFULLY

Trust is valuable. Families, supporters, and volunteers trust us; we highly appreciate and take good care of it. In our work, we turn to each other with mutual trust. We perform our tasks, commitments in a reliable manner, and we can rely on each other.
